

Quality Commitment Policy

We operate a fully integrated Quality Management System which complies with both the ISO 9001:2015 requirements and ISO 22716:2007 (GMP Cosmetics). Our quality policy is based upon the following principles:

- Transparent and open communication is the basis for a long-term cooperation with our customers, partners and suppliers.
- We grow, together with our customers and suppliers with challenges and Successes to secure the future of our company. We continuously strive to meet current market demands.
- Our products are manufactured at all times in perfect quality and meet the regulatory and legal requirements.
- The promotion and demand of the people in our team, we provide a continuous improvement of our work quality and creativity.
- We are aware of our social responsibility and improve our measures to protect the environment and aim to be as sustainable as possible.
- Continuous improvement of our processes and services is a key goal of our company.
- The characteristics and integrity of the purchased raw materials are key factors for the quality of our products. We therefore invest substantial resources into the further development of the supply chain together with our suppliers.

Furthermore, we continuously strive for business excellence by integrating other Management Systems or their approaches into our Quality Management System.

Our Corporate Vision and our business activities derived therefrom are based on the defined principles of our Corporate Social Responsibilities which include environmental, social and ethical concepts. These principles are integrated parts of our Quality Management System.

This policy will be reviewed for its suitability on an annual basis and communicated to all interested parties.

Dr. Peter Röthlisberger
Managing Director
